

I am a dedicated member of the MCR who will work hard to ensure the needs of its members are being adequately represented in Churchill College. During my term as MCR Bar Secretary, I saw our community grow together, support its members' diverse sets of interests, and embrace new students as they began their studies. I gained experience working with College staff, the MCR, and the committee to run events and ensure the smooth operation of our student-run MCR bar. The MCR has flourished in the past year and I would greatly appreciate the opportunity to help it continue to do so in the next one as President. Among others, I feel the following are important issues for the MCR:

- Continue to develop a strong relationship with Churchill College and JCR, other colleges and University student organisations, and the University itself in order to work together to best meet the needs of MCR members.
- Support students and look after the welfare of its members. To keep in touch with the needs of its members (families, international students, students living on/off College grounds, etc.) in order to best represent and meet them in College.
- Ensure the community atmosphere is kept alive and well.
- Continue to host great events and support student initiatives that represent its members' wide range of interests, be they social, environmental, academic, etc. and communicate these events to the student body. In this way we will hopefully be able to maximize student participation.
- Continue to support our MCR Bar and MCR committee members in any way possible.

As President and with the help of my committee, I would try my best to bring another successful year to the Churchill MCR. I am proud of its members and their accomplishments and it has been an incredible experience getting to know the people who attend Churchill College. It would be an honour to represent them as President this year.
