

Hello Churchill MCR members

I'm Jack, an MPhil CompSci student, and I'm running for the First Year Representative role. I'm excited to be standing for a position on the MCR, both to give all first year members a voice, and to be a part of the hard-working team continuing to make Churchill's MCR community the best and most vibrant in Cambridge!

Why should you vote for me?

- I'm friendly and approachable; ready to listen and act on comments from first year members of the MCR
- I've previously been a part of a large committee during my undergraduate course, to organise a charity music festival (volunteering within the site and marketing subcommittees). I'm therefore used to managing my time well (including developing a ticketing system at a very busy time in the academic year), ensuring clear communication, and working across many different groups
- I feel it's important to continue to engage with all first years throughout the year, by organising a number of social activities, from formals to relaxed game nights, so our MCR can continue to thrive in future
- I **love** Christmas (some friends say a little too much), and I promise to put on the best Christmas party at the end of Michaelmas term yet!

Vote **Jack Hughes** for First Year Representative!
