

## CHIOMA ACHI

### MANIFESTO FOR MCR ACADEMIC OFFICER

My name is Chioma Achi and I am a third year PhD student in the Department of Veterinary Medicine (working on antimicrobial resistance) where I am also the Postgraduate students' representative.

In the past year, I have worked with Savvas Gkantonas as an Academic Officer for the Churchill MCR. Together, we organized the weekly academic seminar series (CHUtalks) at term time and the annual Churchill College Conference on Everything. I have also worked as part of a team that organized several conferences and the upcoming National Students Conference on Antimicrobial Resistance.

It will be a great pleasure to use the experiences I have gained over the couple of years in various capacities to continue to showcase the great research undertaken by students and fellows of Churchill College. I hope to continue with the weekly CHUtalks and the Conference on Everything to give more students the opportunity to present their research to the wider community and with your support, have another documentary night next term.

I am running for the position of Academic officer and will like you to support me in bringing you more interesting academic talks. Vote Chioma Achi!!
