

**Manifesto for Families Officer**

# **Amila Jayasinghe**

I am a second year PhD student at Department of Engineering, Structures Group. During my time at Churchill College I have been giving side support to the MCR committee in different ways, including parenting at Fresher's week. I would like to step into the MCR committee this time as the voice of the families at Churchill College. I have a vision not only to represent the families at the committee but also to make the year happening for the families throughout.
