

# MANIFESTO

## FOR ACADEMIC OFFICER

Dear Churchill College MCR,

I am Éva Bernadett Bényei, a first year PhD student in Biochemistry who is fascinated by the wonderful community of our MCR. While being a new resident in Cambridge, I would like to have a valuable contribution to our community and make the most of my time here.

Attending one of the best Universities in the world, most of us would like to achieve great things in the academic area, however, it is difficult sometimes. We would like to do our best in front of experts recognised all around the globe even though everyone needs a safe place to practice from time to time. As far as I am concerned, the Academic Officer's task is to create a friendly and inspiring atmosphere where MCR members are allowed to prepare and to learn from each other.

I am running for the role of Academic Officer because I intend to represent openness and development in the academic life of MCR. My former experience as a leader of proactive student associations qualifies me to deliver the promises and take care about proper event management.

My aim is to continue organising the existing events like Academic Seminars, the Annual Conference on Everything, Pub quizzes etc. as well as to introduce new concepts adapting to the current situation caused by the pandemic. New ideas and projects are always welcomed, feel free to catch up for a coffee if you have something to share.

Thank you,

Éva
