

“MANIFESTO” TO BE YOUR FIRST YEAR REPRESENTATIVE

- Hi! My name is Joshua and I am a first-year PhD student (Engineering) who is new to Cambridge (perhaps as many here)
 - Not surprisingly, I am new to Churchill as well!
- I did my Bachelor's and Master's in Germany and worked in the US for 1 ½ years
- I am running to represent the interests of all new members within the MCR and towards the college.
- I gained quite some student politics experience (e.g. I was member of the senate of my old college, president of the executive organ of my previous student union, did some things on the European level)
- As a fresh person, I do not have an “agenda” of things that I would try to implement because everything is so new, but I believe an “outside” perspective can be helpful to the MCR. I would do my best to be a productive of it
- Perhaps most importantly, I would like to be an additional contact person, who you can approach if you have any troubles at Cambridge or within the college
 - Please reach out anytime if you have questions

That's me! (Joshua)
Would be very happy
for your vote. Thank
you so much!
