

MCR Secretary

Santiago Agüí Salcedo

Who am I?

- I am a 3rd year Theoretical Physics PhD student, so I've been in Churchill since 2021. My area of research is Cosmology, where I explore the history of the universe and what we can infer from our perspective on this pale blue dot.
- I actively participate in MCR events and hope to be a familiar face to you. If you've played board games with me, I apologize for the chaos.

Why do I want to be MCR Secretary?

- I have actively participated in my scholarship's committee and played a pivotal role in organizing a workshop within my department. These experiences have equipped me with the skills and knowledge necessary for the role of Secretary.
- **I hold a deep appreciation for Churchill College**, its MCR community, the vibrant social life, and the nurturing work environment. I'm proud to be part of a diverse and inclusive college that stands out.
- My goal is to contribute to creating a more open and welcoming environment for everyone at the college, whether you are a MA/MSc student that is briefly passing by or a PhD student that is embarking on a new life stage here in Cambridge.

Why Vote for Me?

- My involvement with the MCR committee dates back to my first year at Churchill. I am committed to representing the voice of the MCR community in our meetings.
- I will ensure that all events are inclusive and welcoming to everyone.
- Together with the rest of the Committee members, I will dedicate myself to ensuring that everyone enjoys the best possible Churchill experience.
